Liability Waiver

I acknowledge that by allowing CWTP to dip my firearm and or scope or electronics affiliated with the objects, that flooding may occur and I do not hold CWTP responsible for any damage related to the submerging of the scope or firearm. I acknowledge that CWTP has explained the process of dipping and I am willingly allowing the process to be completed on my pieces even though there could be a chance of damage to the firearm and or scope or electronics affiliated with the objects from submersion of the objects. Extra care is and will be taken to stop water from getting to areas not needed but the objects are being completely submerged so no guarantees will be made.
